HAS CONTROL OF THE STEEL TRUST

(By Associated Press.)

(By Associated Press.)

PITTSBURG, PA., Nov. 14.—The Post to-morrow will publish a story to the effect that a combination formed by John D. Rockefeller, George Gould, J. J. Hill and other capitalists, has practically secured control of the United States Steel Corporation, that the acquiring of the New York Central and its feeders by the Rockefeller-Gould interests is in furtherance of a plan to secure control of all raliroads from the West to the seaboard, including the Baltimore and Ohio, and eventually the Pennsylvania Raliroad.

The scheme, it is claimed is a plain business proposition, in which the syndicate has undertaken to secure control of the greatest tonnage producer in the world (the United States Steel Corporation), and provide means for its transportation, as well as for the immense tonnage made possible by the advent of the Wabash into the Pittsburg coal and coke producing districts.
